

Y8 school closure project work

Create a display, showing how you form the present, passé composé and futur proche tenses in French (the past, near future and present). You can show how you want to present this: mind maps, spider diagrams, flow charts, pictures, powerpoints, posters, prezi etc. – any medium you want is welcome.

ENTRY LEVEL:

- You MUST include at least one example of each tense and illustrate it with a picture
- You MUST include the basic rules for each (i.e. three parts for perfect and what they are; two parts for future and what they are; how to conjugate regular present tense verbs, ending in -ER, -IR and -RE)
- With compound tenses (more than one bit to them), e.g. perfect and near future, conjugate the relevant verbs that are always needed (avoir/être for perfect; aller for future)

MID LEVEL:

- Think about what you can use to 'build up' your sentences (e.g. time phrases, different connectives, opinions, adding an imperfect "it was great" = c'était genial)

HIGHER LEVEL:

- Include some irregular verbs as examples too (there are plenty!)
- Include questions/a quiz or even link to a Kahoot

! PLAN your display first before rushing into it; I want to see evidence that you have thought about it and your thought processes!

Extension: Act out some of the sentences with a sibling, friend or parent(s) and film it. Upload it to GC. Make me laugh like only you can, Y8!
